

2019 GALA CELEBRATION

Honoring Congresswoman Mikie Sherrill

The Great Swamp Watershed Association (GSWA) will hold its annual Gala Celebration on **October 3, 2019** at Brooklake Country Club, Florham Park, New Jersey.

We hope you will join us in celebrating more than 35 years of protecting our waters and lands, and in honoring Congresswoman Mikie Sherrill.

Be part of this year's Gala Celebration and show your support!

For more than 35 years, GSWA has been working to improve and protect the environment for the benefit of current and future generations. Each year, we mark our anniversary by throwing a very special party. GSWA's Gala is the largest, most important fundraiser of our entire year. We depend upon your generosity to make this event the best that it can be, so that we may continue to enhance and expand our important water-quality monitoring, environmental stewardship, education, and advocacy programs.

Here are a few ways you can make a difference:

- Make a reservation to join us at our celebration in October or, better yet, **Reserve a Table** of 10 seats and bring your friends and colleagues!
- **Become a 2019 Gala Underwriter** and help us carry out our mission. Enjoy the benefits of sponsorship and promotion to more than 400 esteemed guests.
- **Place an Ad** in our *2019 Gala Program & Auction Guide* to publicize and promote your business, to honor Congresswoman Mikie Sherrill, or to congratulate GSWA on our environmental efforts.
- Donate a special item, product or service to our popular and amazing **Silent and Live Auctions**.

The Great Swamp Watershed Association

Founded in 1981, the Great Swamp Watershed Association is a 501(c)(3) non-profit organization dedicated to protecting and improving the water resources of the Passaic River region, from the Great Swamp headwaters to Newark Bay, for present and future generations. Through education, advocacy, science, land preservation and stewardship, in collaboration with partners, we work to instill our communities with an awareness of water's effect on health and the beauty of the environment, from source to sea.
